**REMARKS**

This Amendment is a Supplementary Amendment and based on the changes to the claims submitted in the Amendment filed January 27, 2004. Claim 1 has been amended to require that the guidetracks intersect at least one of the beginning and at the end of their course along the recess. The options that the two guidetracks intertwine in each other or extend directly adjacent to each other have been deleted. As argued in the Amendment filed January 27, 2004, neither Solar et al. (U. S. Patent No. 5,947,983) nor Stefanchik et al. (U. S. Patent No. 6,015,416) show or disclose the guidetracks intersecting.

This Supplemental Amendment should render claim 1 allowable and place this case in condition for passing to issue. Such action is respectfully requested.

Respectfully submitted,

YOUNG & BASILE, P.C.
